

Hearing aid selection guide.

Life sounds brilliant.

WHAT MATTERS MOST TO YOU?

Choose all that apply

- Rechargeability** 
 Perfect for those who want to avoid changing small hearing aid batteries, especially if you have dexterity issues.
- Connectivity** 
 Stream calls, TV, video, music, and more to both ears. Easy to use - works with Signia App.
- Hearing in noise** 
 Hear conversations in situations with excessive background noise - such as a busy restaurant or crowded store.
- Natural sounding own voice** 
 Hear your own voice as nature intended - avoid having your voice sound too loud or unnatural.

SIGNIA WORLD'S FIRST
- Tinnitus relief** 
 Therapy strategies provide a soothing, positive listening experience.
- Personalized sound** 
 Hear sounds and speech from any direction - automatically adjusts to adapt to your unique listening situations and movements.
