

Powered by the Signia Augmented Xperience Platform

Performance Levels

7/5/3

Expanding on our mission of enhancing human performance

Signia's latest innovations for customs – the Insignia Charge&Go AX – is powered by the world's first Augmented Xperience platform which delivers up to 96 channels with two dedicated processors for split processing and a host of clinically proven benefits including NEW and enhanced audiological features. The Augmented Xperience platform is designed to deliver outstanding speech quality in quiet, moderate, and noisy environments!

Provider Benefits

- Featured rechargeable ITC and ITE models designed to support a broad range of patient's needs:
 - **Easily connect to iPhone® and ASHA-compatible Android™ devices**
 - **Convenient push-button for onboard control**
- Small design for a higher fitting rate and all-day comfort for increased patient satisfaction
- Easy insertion and removal to address challenges with dexterity
- First **contactless charger for easy operation**
 - No specific charging position required
 - Wearers intuitively place the Insignia Charge&Go AX hearing aids in the charger

Wearer Benefits

- **Custom-made hearing aids tailored to the wearer's ear canal providing all-day wearing comfort**
- **Easily connects to iPhone and ASHA compatible Android devices** for effortless streaming from any Bluetooth® device
- Contactless charger offers ease of use
- Innovative charger provides up to 24 hours of use on a single charge

Key Features*

- TeleCare Ready
- Built in Li-ion Cell for contactless charging
- Powered by the **World's First Augmented Xperience platform with two dedicated processors**
 - More than **25% better speech understanding in noise** compared to own hearing aids¹
 - **94% of wearers report excellent speech understanding** with Signia AX**

New Features

- **Hands-Free Mode** by using Bluetooth®, the wearer can use their hearing aids for hands-free calls with their iPhone in different environments. In noisy environments, background noise is reduced, allowing the hearing aid wearer to hear clearly what is being said on the phone. The hearing aid's built-in microphone lets conversation partners hear the wearer's voice in high quality.
- **Auto EchoShield** available in our Level 7 Signia AX hearing aids, Auto EchoShield creates a cleaner, more immersive environment by neutralizing reverberation and sudden loud noises instantly, before they become an issue in atriums, hallways, lecture halls, and other complex environments.
