Silk X

## SIGNIA SILK X HEARING ALL ABOUT YOU

DISCRETION

So small that it's almost invisible in the ear, Signia's Silk™ X delivers an exceptional hearing experience. One of the world's smallest hearing aids, you can wear with confidence.

**signia**

Life sounds brilliant.

## TAILOR-MADE, WITHOUT THE WAIT

Silk X is ready to wear on the spot without any fuss or waiting times thanks to its soft-silicone sleeves that allow it to hide comfortably in your ear.

## HEAR IT ALL, CRYSTAL CLEAR

Whether you're on a crowded street, working in an open-plan office, or dining in a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort.

Thanks to its Signia Xperience technology, Silk X delivers true-to-life sound and speech comprehension to meet your hearing needs, even in noisy environments. You hear what matters to you - all day long, in every situation.

## PERFECTLY POSITIONED FOR PHONE CALLS AND MUSIC

Unlike hearing aids that sit behind the ear, Silk X microphones pick up sound inside the ear canal. This enables you to make phone calls and listen to music in the way you're used to, including with over-ear headphones.

## PERSONAL SUPPORT, AT YOUR FINGERTIPS

### Remote control

You can control the volume and other settings discreetly via the Signia App on your smartphone or the miniPocket on your key ring.

### Actual size in cm

### Faceplate colors

### Shell colors

### Sleeves

The sleeves come in four sizes and two styles, closed and open versions, suitable for most ear anatomies and hearing needs.

### Tinnitus options

If you suffer from tinnitus, Silk X features a range of therapy options to make your life more comfortable.

### CROS Silk X

Untreatable hearing loss in one ear shouldn't stop you from hearing what matters. CROS Silk X ensures brilliant sound so you can hear conversations and sounds coming from both sides.

Compatible with Android and iOS. The app is free of charge.
