

Better speech clarity in any environment

Our rechargeable Insio Charge&Go AX are small, custom-made hearing aids tailored to your ear canal, providing all-day wearing comfort. The Insio Charge&Go AX is powered by the leading Augmented Xperience audiology platform that delivers outstanding speech clarity, even in noisy situations.

95% of participants in a recent study reported being satisfied with Augmented Xperience (AX).¹

About Signia

Only Signia combines industry-leading audiology and technology to deliver iconic innovations in hearing to enhance human performance. We put hearing aid wearers first, with products that fit their wants, needs and style. The wearer is at the center of our universe and their needs are woven into our DNA.

For us, this is not about correcting a loss, it's about gaining an edge. Not just performing, but performing at their best.

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice.

Insio Charge&Go AX

Speech clarity without compromise

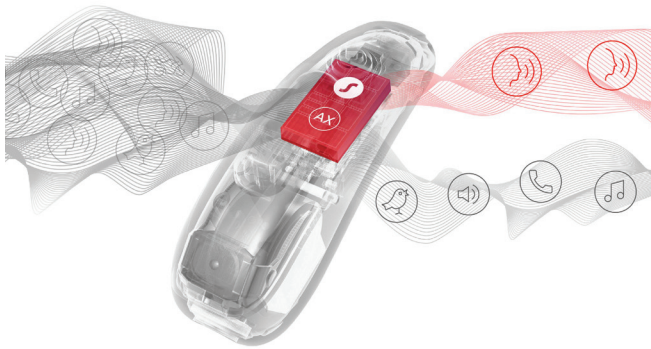

You shouldn't have to choose between focusing on speech or your surrounding environment. With new rechargeable Insio Charge&Go AX hearing aids, you don't. Our revolutionary Augmented Focus™ technology lets you focus on conversations you want to hear, without silencing the sounds that still matter.

Soundscape

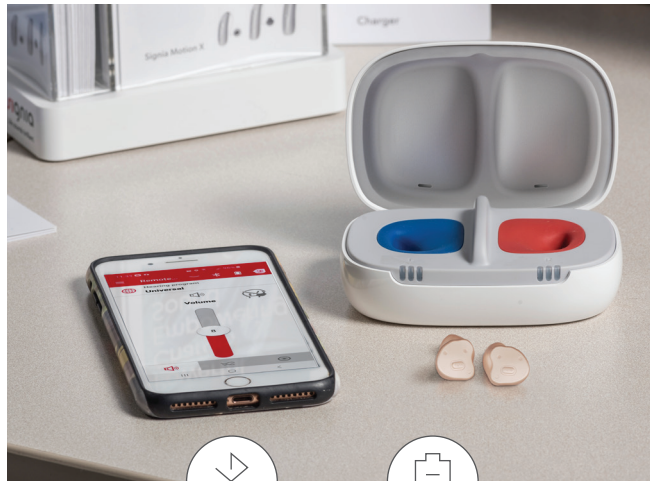

Revolutionizing the way sound is processed

Traditionally, hearing aids have processed all sounds under one set of rules, resulting in signals competing against each other. Insio Charge&Go AX hearing aids can separate speech from background noise using Augmented Focus™ technology. Two dedicated processors can fully optimize different sounds without compromising one or the other.

Contactless charging: Connectivity meets convenience

Insio Charge&Go AX are packed with all the advanced features you need, such as Bluetooth® connectivity, Android and iPhone compatibility, and advanced tinnitus therapy settings to help soothe ringing in the ears.

Our rechargeable hearing aids are the first custom hearing aids with contactless charging for ease of use. Simply place the Insio Charge&Go AX in the Insio charger without worrying about any exact charging contact. It provides up to 24 hours of use on a single charge.
