“After 130 years of innovation, our heritage speaks for itself. In future, it will say Signia.”
Signia.
Inventing the future of better hearing.

Our philosophy has always revolved around improving the lives of people with hearing loss.

Today, the introduction of our new brand, Signia, marks the beginning of many more life-changing innovations. A brand whose values are even more forward thinking, customer centered and quality driven.
Forward thinking.
Continuous innovation and improvement call for passion, courage and, above all, forward thinking.

With Signia, we constantly look ahead, pushing the limits and challenging the impossible in the search for new ways to help people listen to what is important to them.
Customer centered.
The true value of innovation is measured by the benefit it brings to others.

With Signia, everything we do - from developing life-changing technology to personalized hearing care - is customer centered and focused on making a positive contribution to the lives of our customers.
Quality driven.
The highest levels of reliability, accuracy and usability are vital prerequisites for all Signia products.

Quality driven, we strive ceaselessly to set new standards of performance and quality because we know that this is how we are measured.
With our philosophy and core values acting as guiding stars, we are committed to inventing the future of better hearing - so that everyone can experience and enjoy the colors of sound.

Signia. Life sounds brilliant.
Signia.
A new spectrum of opportunities.

The vision of Signia together with the experience of Siemens gives you a comprehensive portfolio of advanced hearing solutions and the support of a passionate team. One with a wealth of knowledge and experience that will continue to flow into life-changing technologies.

The future of better hearing is in our hands. Let’s make a difference together and, for even more people, ensure that life sounds brilliant.
